

StorMagic Company Profile

About

Since 2006, StorMagic has been exclusively focused on simplifying and automating the management of data storage. The cornerstone of our corporate mission is to leverage innovation to reduce the acquisition and management costs of shared storage. With SvSAN, StorMagic has achieved a new milestone; by leveraging the resources of a VMware® ESX server and providing integrated vCenter management, its solutions deliver a highly available shared storage environment for a fraction of the cost of traditional systems.
